THEY BUY TICKETS.

And for two years in a row, the ticket that more people bought was an Eastern ticket. Because more people flew Eastern than any other airline in the entire free world.

In the past two years, we've grown in other ways as well. Our route system now includes new cities throughout the West and Southwest, and from our hub in Miami we're flying to even more islands in the Caribbean, as well as adding new routes to Central America.

Today we fly almost 40 million passengers a year to 111 cities in 14 countries. But we never forget that there are a lot of airlines out there you can fly besides Eastern.

So we're especially pleased to know that Eastern is the number one passenger carrier in the free world.
